Masterclasses in Aged Care Design

Creating supportive environments
for older people

An interactive one-day course that
will equip you with the knowledge and
skills needed to design meaningful
aged care homes.

This program is ideal for architects, planners,
property and development professionals,
and aged care executives interested
in building development.

Gain expert insights on designing aged care
homes and connect with peers working on
similar projects. Nick and Liz will introduce core
principles for design for dementia, frailty and
ageing, and explore the practical application
of these principles in real projects.

During this Masterclass, you will:

- gain a better understanding of your clients
and why environments matter
- explore the impact of design on people living
with dementia
- consider the relationship between models
of care and architecture
- practice reviewing plans and live environments

Don't miss out on this opportunity to enhance
your knowledge and skills in aged care design.

Course length

6 hours CPD

Includes 1 hour for NCC

Cost

\$500pp

Includes lunch,
refreshments and
printed resources

Nick Seemann

and **Liz Fuggle**, are
practicing architects
and the key authors
